Thanks. I penciled Oct 15 on my calendar. I've got a couple of other things I need to do in the Corpus area. This might be an opportunity to get down there.

All –

I wanted to let you know that I participated on the Corpus Christi Livability Summit kick-off call yesterday. My apologies for overlooking it while I was in training last week and not forwarding it in time for you to participate. Participants included representatives from TXDOT DMV, the MPO and FHWA. See my below WAR write-up for a summary of the call.

**CORPUS CHRISTI LIVABILITY SUMMIT:** On July 21<sup>st</sup>, agency contacts of the Region 6 Partnership for Sustainable Communities held a kick-off call with representatives of the Corpus Christi Metropolitan Planning Organization (CCMPO) and TXDOT to begin planning efforts for a one-day Livability Summit scheduled for October 15, 2014. CCMPO representatives explained that the Summit's objective is to identify sustainable community enhancement opportunities along the US-181 Harbor Bridge area and broader issues at the Port and City to address various community needs, align opportunities with the City's Sustainability Plan and Connectivity Plan, as well as incorporate sustainable community opportunities in its AIA Regional/Urban Design Assistance Team (R/UDAT) community workshop and action plan. The City's Connectivity Plan includes hike-and-bike trails for connectivity to recreational/ destination point areas, walkability/livability of residents and tourists, as well as revitalization and economic opportunities. CCMPO indicated issues of concern include the Northside EJ area, industrial and urban areas, destination points, and etc. **Suzanna Perea, 665-7217.**
